THE FINE RESIDENCE OF I. VAN NUYS DESTROYED.

The Family Turned Out Early in the Morning-An Alarm Not Turned in on Time-The Loss and In-

Yesterday morning at 5 o'clock a most disastrous fire occurred at the residence of I. N. Van Nuys, at the corner of Spring and Militia and the Grand Army.

destruction of the entire premises. Shortly before the fire broke out certain of the servants were aroused from sleep by experiencing an unusual amount of heat. They arose and made an investigation, but could discover nothing wrong, and, supposing that the temperature had been raised by the fire that had been kept burning in the apartment of Mrs. Lankershim (mother-inlaw to Mr. Van Nuys) during the night, as well as day, on account of her illness, they

apartment of Mrs. Van Nuys) during the night, as well as day, on account of her illness, they returned to their rooms. Almost immediately after smoke was discovered ascending from the second floor, in the room of Mrs. Lankershim.

The inmates of the house were aroused, and, as Mr. Van Nuys imagined that the fire could be controlled without the aid of the fire department, an alarm was not turned in at once. Attempts were made to extinguish the fames, but it was discovered that the entire north side was on fire, and, without further delay, an alarm was sett in to the fire department.

When, the department arrived the fiames had made such headway that it appeared fnevitable that the beautiful structure was doomed. The fire had so consumed the inside of the house that the inmates, thinking that its ravages would be confined to the one portion of the building, took refuge in the southern apartments. Their stay there was one only of a few moments. The flames burst through the walls and forced them to beat a hasty retreat and by the time that all the linnates had got out from their perilous position the entire building was a settling Mass of FLAME, which with fierce intensity consumed what the first building was a settling mass of the settling mass of the flames burst through the walls and forced them to beat a hasty retreat and by the time that all the linnates had got out from their perilous position the entire building was a settling Mass of FLAME, which with fierce intensity consumed what

then the alarm would not work correctly.

As a last resort a message was delivered in person. The firemen worked hard under the direction of Chief Moriarty, who took his stand on the roof and remained there till it was about to fall in.

As II. Blackman was leaving a restaurant on Commercial street yesterday he appropriated, so it is asserted, a spoon belonging to the establishment. An officer was called, and, on his arrival. Blackman, who was standing on the curb, was guilty of such gross indecency that he was run in at one, though with difficulty, as he fought so hard it took two officers to arrest him. He had contrived to throw away the spoon, so he will be charged with being drunk and exposure of person.

The long-tongued flames shot out from the roof and sides, and for a time it was feared the two story building adjoining, occupied by M. A. Newmark, would also be doomed. The stable of Mr. Van Nuys fortunately escaped, but the garden is cut up and very many choice plants ruined.

VERY FEW ARTICLES WERE SAVED.

The progress of the fire after its first discovery were so rapid that time was not afforded to remove anything from the upper portion of the house save a few costly articles of clothing and jewelry. Below all the furniture was destroyed with the exception of a parlor set and an upright piano.

The rooms, both upstairs, and down, are a total wreck, and what escaped the flames was ruined by the deluge of water that flooded the house to a depth of several feet. The house is a wreck, and not even the walls can be utilized should Mr. Van Nuys decide to rebuild on the same site.

In consequence of the inefficient alarm system the fire department was slow in getting to work. The District Telegraph Company set an alarm that caused one engine to go down Alameda street.

Chief Morfarty received an alarm at his house from the corner of Ninth and Main. The latter was sent by a servant girl in the employ of Mr. Van Nuys. When

A Fight:
As I. Brannan was shaking dice in a sigar store in the neighborhood of Second street yesterday afternoon, a man named yesterday afternoon, a man named Sam Lloyd came in and seemed to be taking great interest in the proceedings. Brannan objected, and told him if he had nothing better to do he had better take a walk, he himself setting the example by walking up toward Spring street. Without any proveation Lloyd ran across and struck him, and a fight ensued, to the edification of a number of people who speedily gathered around. After disfiguring one another for a short time an officer put in an appearance and they were both taken to the city lockup.

Cogni-rance is taken of the fact that the clerk's record states that Rozelle was found guilty of the crime of felony, no such crime, it is argued, being mentioned in the statute. On a similar plea brought before the Su-preme Court, some little time ago, it was held that the clerk of a court had the right to correct his record.

Dougherty returned in 60 seconds and the sardonic smirk that decorated his Corkonian countenance didn't argue well for the sensation. Dougherty reported that he had found the lady and that she was still alive. He found her sipping a cup of coffee and studying the pricelist of Anaheim town lots. She explained that in crossing Spring street she accidentally dropped her parasol and that in stooping for it she slipped and fell; that she was in no mainner hurt, but that she was in no mainner hurt, but that she had picked up her parasol and self and moved on about her business.

Old Baldy, with his superb height of 9000 feet and heary, snow-crowned tops, and Cucamonga, with its grand height of 5000 feet, together look down in majesty on the lovely valley at their feet, where, in most charming contrast, may be seen, far as the eye can foam, orchards of orange, lemon, lime and oilive, and vineyards laden with semi-tropical fruits, and fields clad with verdure and laden with perfume.

About three miles to the west may be seen the flourishing town and colony of Ontario to the northwest, about the same distance yard; to the north, the fine new town of North Colton and San Bernardino, and im to the southwest is the rich and prolific Chine ranch, South Cucamonga being the great cen

The climate of any section being dependen largely in distance from the sea coast, altitude of surface, relation to mountains, and general topograpy and contour. These conditions are perhaps as nearly perfect in Cucamong as can be found anywhere in the world. The distance from the sea coast assures freedom from fog-laden sea breezes, while the atmosphere is so pure, dry and exhiberating that those suffering from asthmatic and pulmo-nary troubles find it most invigorating and health-restoring.

No new town in Southern, California has brighter prospects for becoming a railroad center than South Cucamonga. Already it has two great continental lines, the Southern Pacific forming the boundary line to the South, the Atchison, Topeka and Santa Fe a short distance to the North, with two projected lines—one to Riverside and another to Sait Lake City.

A fine new passenger and freight depot, just completed by the Southern Pacific Railway, adds greatly to the comfort of travelers and general attractions. Over thirty trains pass through Cucamonga daily.

their minds to establish a metropolitan police for Los Angeles, if such a thing is possible. The wholesale way in which criminals have handled other people's property in this city during the past few months has convinced them that the force must be enlarged and reorganized. The work of reorganization will begin next Monday, and all three of the commissioners, Mayor Workman, Chairman of Council Humphreys and Chief Cuddy, have already talked the matter over to a certain extent, and if they are permitted to carry out their ideas it will not be many months when Los Angeles will be able to boast of having the best police force in the State, and one of the best in the United States. As near as can be learned at the present time, they intend to increase the force from 60 to 100 men. They will also establish, if possible, a thorough detective corps, with a trained detective at the head. They are beginning to realize the fact that good work cannot be done until about the same amount of money that is spent on the police force is used in keeping up the detective force. A prominent member of the force is now up north looking into the systems of San Francisco and Ookland, and will probably be able to make a report at Council meeting next Monday, While the Oakland force is quite small, it is so thorough that criminals have a mighty hard time in getting along in that city. The Chicago alarm system was put in about a year ago and Capt. Thomas has found it most successful. Every patrolman has to report from the various boxes on his beat once each hour, and his report is registered at the office, so that the Chief is able to know each day just what his men were doing the night before. The boxes are so arranged that an officer has but little. once each hour, and his report is registered at the office, so that the Chief is able to know each day just what his men were doing the night before. The boxes are so arranged that an officer has but little time for play, and when he does not turn in his score he is compelled to give an explanation. In Oakland an officer is put on a beat and kept there until he does something which causes his removal from the force or for which he is chinged to some disagreeable beat as a punishment. This is done for the reason that when officers are channed from beat to beat each month, as is the case in this city, they do not have a chance to become acquainted with the criminal element. Capt. Thomas has removed a few men from one-beat to another, but, strange as it may seem, he has not removed a single officer from the force during the past year, or since the police and fire-alarm system was put in. His men are under perfect control, and they are never found gossiping about the streets with each other while on duty, as is the case in Los Angeles. The commissioners are also convinced that there should be two or three branch police stations. They will establish one in East Los Angeles and another in the southern portion of the city. With these improvements the commissioners and the Chief will be able to do good work.

A FRESH NEWS DEAL.

The publishers of THE TIMES have the satisfaction of being able to announce the completion of a new arrangement-to go into effect about March 1st-in regard to Associated Press reports, by which the already large volume of its daily telegraphic news will be materially enlarged, the quality still further improved, and the time of its reception considerably shortened.

The new deal gives us. unbroken. the entire eastern and cable reports that now come to this coast, placing THE TIMES on an equal footing with the largest San Francisco papers in

In addition to the eastern and cable news budget complete, we have secured a Pacific Coast report-which will average 1500 fresh words, every night-the whole (including the day report) making a mass of telegraphic news which will reach from 7000 to 9009 words daily, filling from seven to nine columns in the close type of this paper, and covering the news field of the coast, the Nation and the world.

This enlarged and improved new service will cost a large sum of money, and give our patrons the result of the very best efforts of the strongest, most completely-equipped, far-reaching and efficient news-gathering organization in the world, namely, the Associated Press, embracing the New York Associated Press and the Western Associated Press, with bureaus in every important news center on the habitable globe.

THE freezing to death of a man in Arizona this week will be quite a revelation to those who imagine that Ter ritory to be nothing but a burning desert. Arizona has almost as great variety of scenery and climate as California. It includes within its limits ore of the largest pine forests in the United States, immense coal fields and high mountain regions covered with oak, juniper and other trees, where, during the summer season, the sports-man can shoot wild turkeys, deer and streams of limpid water, and sleen blankets. Arizona is one of the least known political divisions of the United States. It would pay our merchants and Board of Trade to give more attention to a Territory for which this

THERE must be something in the Los Angeles climate that is conducive to exaggeration. Labor Commissioner Tobin gave an Examiner reporter a very fair account of Los Angeles, but in speaking of our real-estate prices he went very wide of the mark. He said that lots within two or three miles of the city cost from \$2000 upward, and that business lots are changing hands at \$3500 per front foot. The truth is that there are plenty of lots-50 by 150 feet-within one mile of the center of the city that can be bought for \$1000 or less, while no business property has been sold for more than \$1500 a foot, and very little for more than \$1000.

city is the natural supply point.

A PASADENA firm advertises real estate for sale by the square foot, which is pretty good for land that was bought for \$5 an acre a dozen years This is, however, the fairest way to sell lots, and is the rule in Philadelphia. In Los Angeles the depth of a lot usually plays but a very small part in the question of price, although in buying a lot 50x150 the purchaser gets twice as much land as in a lot 50x100.

Mr. Dodge of Massachusetts supported the minority. The pending case was too important to be settled by affidavits. It deserved the attention of the American Congress. Considering particularly the enormous disparity between the contestant and contestee, the House should proceed with great circumspection. The contestant's case had been sheekingly mismanaged. He came now and threw himself on the mercy of the House. There was a widespread belief among the great working classes that the power of corporations, the power of a ring and the power of nien high in authority, and backed by money and influence, had enormous weight in all legislative bodies of the country. This belief was dangerous and unwholesome.

a man with whom Fowderly had a quarm and not 100 men who will sign have ever seen a telegraph message."

Dr. Green said he had prepared a petition and remonstrance to Congress, and would not longer detain the committee.

Gardner Hubbard addressed the committee in favor of Dawes' Postal Telegraph Bill. It was his opinion that of the \$86,00,000 of the capital stock of the Western Union, about \$8,000,000 or \$10,000,000 had been paid in cash by the stockholders, and probably as much more by the stockholders, and the test of the capital was held by directors of the company. They therefore had virtually a monopoly, since it would be utterly impossible at any stockholders' meetings the directors themselves.

Dr. Green corrected this statement, and said that at stockholders' meetings threfourths of the capital stock was frequently represented.

Mr. Hubbard, said that in this country there was practically no competition, and could be managed more easily by one company than by a number, but the question arose whether the Government could not manage the system more cheaply than it does. This question should be answered in the affirmative.

WASHINGTON, Jan. 20.— By the Associated Press.] Senator Sawyer, chairman of the Senate Postoffice Committee, called his committee to order this morning, and Dr. Norvin Green, president of the Western Union, addressed the committee in opposition to government telegraph.

He devoted himself first, though briefly, to constitutional questions to which the measure gives rise. He quoted decisions of the Supreme Court in effect that telegraph business is in itself commerce. He touched upon this constitutional point, he said, merely because he did not wish the committee to understand the company waived it. He claimed that no people on earth enjoyed as perfect a system of telegraph as the Americans. Green then compared the telegraph systems of England and the

The differential allowed the Canadian Pacific is \$10 en limited first-class rates to Puget Sound and Portland, and \$5 on emigrant tickets to the same points. The Puget Sound and Portland territory is given entirely to the Northern and Canadian Pacific Railroads. Representatives of passenger business are drawing up a circular giving rules geverning round-trip excursion rates. A general meeting of the association was held today. Representatives of all the lines were present, also officials of the Texas and Pacific. Headquarters were established at St. Louis, where Chairman Leeds will have an office. Agencies will also be established at New York and San Francisco.

BAISING THE BLOCKADE.

SALT LAKE, Jan. 20.—Two engines belonging to the Union Pacific have been borrowed by the Central Pacific Company for use in disposing of the immense quantity of freight stored between Ogden and San Francisco. It is expected that the blockade will soon be raised. The Utah and Northern passenger got into Ogden last night, and another train left immediately for the north. Snow is still so deep that it is uncertain when any more trains will get through.

HANGED.

Execution of Newlin, the Murderer, at Cambridge, Mass.

Bostox, Jan. 30.—[By the Associated Press.] James E. Newlin was hanged at Cambridge Jail this morning for the murder of George A. Codman, his employer, January 4, 1887.

The details of the murder, which was committed for money and for which Newlinds

committed for money and for which New-lin was executed, mark it the most horrible in the history of New England. Newlin, who was only 17 years old, was employed by Codman to deliver milk. According to Newin's confession, he went to the barn and waited for Codman early in the morning, and when he appeared he struck him in the neck with a knife, killing him instantly. He afterward cut up the body so that he could carry it, putting the parts in an old milk wagon, drove about 15 miles and threw out the pieces, where they were found by farmers.

The Jubilee Singers are no longer under the suspices of the W.C.T.U.

A good old-fashioned California rain began falling yesterday morning shortly after I o'clock, and a steady, slow rain has been coming down almost ever since.

W. W. McNully and his wife of Sedalia, Mo., are out here for a visit. They are guests of Mr. and Mrs. J. C. Kays at their residence, 928 South Hill street.

W. W. Bartlett, Sheriff of Saline county, Kan., and Prosecuti.g Attorney James Moore of the same county were seeing the sights in Los Angeles yesterday.

D. W. Douglas, the cornet-player, who was knocked down by a runaway twam a short time ago, when three of his ribs were broken, will be out in a short time.

The anniversary of the birth of Robert Burns will be duly celebrated in this city by the Caledonian Club. Robble Burns of London, Canada, will be present, and will take part in the ceremony.

Officer Bosqui yesterday found on Main street a bay horse and buggy, for which he could not find an owner. The horse and vehicle are at Jackson's stables, where the owner may hear of them.

Licenses to marry were yesterday issued by the County Clerk to Charles E. Sumner

McGrath and Nellie E. Farrell.

The work of gathering in the tramp element still goes on in constable circles. The County Jail is crowded to overflowing, and Sheriff Kays is at a loss to know what to do with the tramp and vag army.

The Board of Health held an executive meeting yesterday for the purpose of selecting a site for a city receiving hospital. Several sites have been offered the board, but they could not make a selection.

The Woman Suffrage Club will meet in the Central Baptist Church Hall, 108 North Main street, today at 7:45 p.m. A pleasant programme, consisting of music and speeches, has been arranged, and gentlemen and ladies are cordially invited.

The good work of "rounding up" the "vags" and toughs continues, and it will soon be a question as to what disposition to make of them. The County Jail has more than double the number it was designed to accommodate, and the facilities at the City Prison are exceedingly limited.

The question as to whether or not the Board of Supervisors shall call an election to vote on the incorporation of El Monte, created quite a breeze in the Supervisors room, yesterday. The incorporators and anti-incorporators made things quite lively for a while. The people will take a vote. Gen. Nelson A. Miles, Commander of the Department of Arizona, and staff will attend the Fremont reception tonight in full-dress uniform. Gen. John R. Mathews, Commander of the First Brigade, National Guard, and staff will also attend in full-dress uniform.
